USB Tablet Charger 2A

This dual USB charger is the ideal solution for charging your iPad or tablet and most of your other devices with a USB connection directly through a power socket. The dual USB charger can handle voltages from 110 to 240 volt AC and converts them automatically to the 5 volt DC that USB devices use. You can easily charge your USB devices without the need of a PC or notebook. Almost all devices which support charging through USB, like iPads, tablets, (smart) phones, navigation systems, MP3 players and digital cameras can now be charged through the power socket. Thanks to the high output power and 2 USB ports, you can charge 2 USB devices at the same time!

Highlights

- > Charge USB (5V) devices like your iPad and/or tablet quickly thanks to the high output (max. 2000mA)
- > 2 USB ports for charging 2 devices at the same time
- > Charge your iPad, tablet or other USB device without the need of your PC or notebook

Specifications

Minimum system requirements

Operating system

Windows XP
Windows 7
Mac OS X 10.5 and higher

Other

Devices must be chargeable by USB without computer recognition
